

Modular Approval Letter

October 4, 2007

The 802.11b/g module FCC ID: U9R-W2SW0001 is seeking FCC authorization as a module transceiver. The EUT meets the requirements for modular approval as details in FCC Public Notice DA 00-1407 'Part 15 Unlicensed Modular Transmitter Approval'. Compliance to each of the requirements is described below –

- 1. The modular transceiver must have its own RF shielding.
 - a. The W2SW0001 has its own RF shielding.
- 2. The modular transceiver must have buffered modulation/data inputs.
 - a. The W2SW0001 is buffered.
- 3. The modular transceiver must have its own power supply regulator.
 - a. The W2SW0001 is regulated internally.
- 4. The modular transceiver must comply with the antenna requirements of section 15.203 and 15.204(c).
 - a. The W2SW0001 complies with antenna requirements.
- 5. The modular transceiver must be tested in a stand-alone configuration.
 - a. The W2SW0001 is tested with support board.
- 6. The modular transceiver must be labeled with its own FCC ID number.
 - a. The W2SW0001 will be labeled with its own FCC ID number.
- 7. The modular transceiver must comply with any specific rule or operating requirements and the manufacturer must provide adequate instruction along with the module to explain any such requirements.
 - a. The W2SW0001 complies with technical instruction for OEM.
- 8. The modular transceiver must comply with any applicable RF exposure requirements.
 - a. The W2SW0001 complies.

Sincerely,

Laura Wang Principal Engineer
